

PARAPARAUMU SCHOOL ANNUAL IMPLEMENTATION PLAN FOR 2026

Summary of the plan

The 2026 Implementation Plan is based around our Charter's 3 strategic goals.

- 1. Learning:** Every student is supported to become a lifelong learner with the motivation and purpose of achieving personal excellence.
- 2. Student Wellbeing:** Individual learning needs and differences are embraced to support every student, irrespective of their unique situation.
- 3. Partnerships with community:** Our curriculum is relevant and engaging, it reflects our community's expectations and aspirations and engages the support of families, whānau, marae and wider communities.

Where we are currently at:

We have completed our third and final year of Mathematics professional development. On analysing our Overall Teacher Judgment data, we have identified reading as our curriculum area focus for this year. We will be looking at how we assess students reading ability and strategies for how we teach Reading. Our reporting to parent's procedures will need to be adapted to meet the new requirements. We will also be looking at the Ministries new SMART tool with a view to using it with our students from 2027. We will be using the PAT tool in 2026.

How will our targets and actions give effect to Te Tiriti o Waitangi:

Our 2026 Implementation Plan will honour and give effect to Te Tiriti o Waitangi by increasing our engagement with whanau in both formal and informal settings. Part of this engagement will be looking for opportunities to gather input from whānau on what we do. Gathering data around teaching and learning will enable us to examine what we do well and also where we may need to improve. Included in this will be how we promote and live Māori values such as manaakitanga, aroha and kotahitanga.

Strategic Goal 1

Learning: Every student is supported to become a lifelong learner with the motivation and purpose of achieving personal excellence.

Annual Targets/Goals:

1 Achievement Target. Reading Curriculum area. TBA. Reading PATs will be used to gather data.

-

2 New requirements for reporting to parents will be implemented for our mid and end of year reporting of student achievement.

- New reporting procedures will be implemented. These will include the 5 new progress indicators and using the new sets of progress markers. It will also include the 5 common components that will be used to report to parents.

3 SMART Tool.

- The new SMART assessment tool will be explored this year with a view to potentially using from 2027. We will be using the PAT tool for gathering school wide data in maths, reading and writing in 2026.

4 Continue to embed the Maths and English curriculum statements.

- Work will continue and build on what we did in 2025 with a view to embedding these documents into our practice by the end of 2026.

What do we expect to see by the end of the year?

- As a result of this target, we would expect to see a positive shift in student progress and achievement in the identified area. Assessment data will show a clear and concise picture of our target student data including trends and shifts in student achievement.
- Our reporting to parents' procedures will be implemented in 2026. These will have been adapted to include all the new requirements from the Ministry of Education.
- An examination of the new SMART will have occurred. A decision as to whether this assessment tool will be adopted from 2027 will be made.
- The English and Maths curriculums will be embedded into our teaching. Learning and assessment practices.
